MEMORANDUM FOR: SA/OT

Attached are the slides and workbook for the Air Force film "Controlled Counterintelligence Assets". The film is now deposited with CRS Pictorial Services Branch but they have no need for the slides. Perhaps OTR can make some use of them.

Those of us who saw the film were favorably impressed and I think it could be usefully used in the BOC as it gives two examples of [REDACTED] which are well done and professional. Next time [REDACTED] is at Headquarters I will suggest he view it.
